

# Scrappy Quarter Cabins Attendee Information

Hello! Thanks so much for signing up the class! I appreciate your adventurous spirit and curious nature. I think this is going to be new and fun and worth it! Here are the details...

## **Choose your Device**

Plan to join the class using a device that you can keep near you in your sewing space. *The larger the screen the better for your visibility.* Think about how you will keep it powered during class.

After you have decided on your device, make sure you have the free Zoom software installed. If your device is a laptop or desktop computer, please visit <https://www.zoom.us/download> to download and install. This is a free download and you will not need to register. If you will join from a tablet or phone, please visit your app store and download the free Zoom app. Do this prior to the event so you don't miss anything! If you would like to check that you did this step correctly you can join a [Zoom Test Meeting](#) anytime to make sure.

## **Joining the Class**

When you register, and again the day before the class, you will receive an email that includes a link to the private Zoom class meeting. Do not share this link with anyone. When you are ready to join the class on the class day, click the link in your reminder email. You will see a pop-up message asking if you want to open the link in Zoom. **Click "Allow"**.

The classroom will open 15 minutes prior to the official class starting time to allow you to get settled with your technology and connect with me about any questions you have. If you have not joined the class by the meeting start time you may have to wait for me to let you in while I begin class introductions. Try to get in the class early!

## Supply List

- Neutral colored **thread**.
- **Rotary cutter** and quilting ruler
- 3/4 yard neutral **fabric for centers**, or 40 neutral colored Charm (5" x 5") squares
- **Scraps** in colors that contrast with the neutral fabric. See scrap notes below.

### Scrap notes

- Scraps can be large or small. Anything over 1" wide will work! Gather as much as you want, at least enough to fill a shoebox
- I recommend including solids with your print scraps.
- Leave white, black, and brown scraps out unless you are using a particular color scheme that includes them. They often increase the chaos if they are not used intentionally.
- Consider a color scheme to help organize your color. An easy way to settle on a color scheme: find a multicolored piece of fabric you like and use only the colors in that fabric!
- Don't stress about this step. The magic happens as long as you have scraps you like! Just trust your instincts and put some fabric in a pile. We'll have fun no matter what.

### And don't forget...

- **A sewing machine.** Make sure it's working! A foot *without* a guide is best as we will not be piecing with precision and the guide may get in the way when larger seam allowances are used.
- **Your device and its charger.** You don't want to miss something if your device runs out of power mid meeting!
- **Patience.** There are annoying things that can happen in any quilting class anywhere. This class will be no different. Please join with a willingness to laugh at how we are all adapting to new technologies and processes. I promise to do the same!
